CUSTOMER AGREEMENT

In submitting this application I authorize Bend Oil Company to investigate my credit record and if an account is established, furnish information concerning my credit file to consumer reporting agencies and other proper recipients.

Bend Oil Company reserves the right to deny credit for the following reasons; Bankruptcy, past or present liens, suits or judgments, accounts listed for collection (paid or unpaid), two or more slow accounts, or a rating of nine, indicating repossession or a write off. Other factors may include a record of slow payment with an affiliated oil company or insufficient credit information on which to make a judgment.

I agree to pay the full balance of this account by the 10th of each month. Bend Oil Company reserves the right to discontinue credit privileges, and/or Pacific Pride card use, to any past due account without prior notice.

If this account is placed in the hands of an attorney for collection or turned over to any agency for collection, the undersigned agrees to pay reasonable attorney's fees even if no suit or action is filed thereon. If a suit or action is filed, the amount of attorney's fees shall be fixed by the Court, or Courts in which the suit or actions, including any appeal therein is tried, heard and decided. **Should my account or any part thereof, be placed with a collection agency for recovery, I understand and agree that the amount owed will be increased by a factor of .667 to cover collection costs.** In the event security is granted for any transaction, Seller may exercise all the rights granted to secured party under the security transaction provision of the Uniform Commercial Code. I authorize the Seller to apply any payment to my account in the following order: (1) Finance charges (2) The purchases in date order, starting with the oldest purchase. Finance charges accrue at 1½ % per month. This application for credit has been made in Deschutes County, Oregon, and as part of the consideration for granting credit the applicant consents to jurisdiction of courts located in Deschutes County, Oregon, for collection of accounts arising subsequent to this credit application.

Accepted and Agreed to by :(Full Name) _____ Date _____

Please print name: _____ State & Drivers Lic.# _____

This section applies to all business applications and must be signed, in addition to the above agreement, by the corporate officers.

I/We, the undersigned ("Guarantor") hereby personally, unconditionally and irrevocably guarantees the payment of the obligations of the corporation, limited partnership, limited liability company, limited liability partnership, or other person or business entity ("Customer") of each and every obligation of this Customer Agreement. This guarantee shall be continuing and shall terminate only upon the satisfaction of each and every one of the obligations under this Customer Agreement. Guarantor agrees the Landlord may from time to time extend the time for performance or otherwise modify, alter, or change the Customer Agreement and any or all provisions thereof, may extend the time for payment of all sums hereby guaranteed, and may receive and accept notes, checks, and other instruments for payment of money made by Customer and extensions or renewals thereof, without in any way releasing or discharging Guarantor from Guarantor's obligations hereunder. Bend Oil Company may enforce this guarantee without first exhausting remedies against Customer nor has Bend Oil Company any obligation to marshal funds or assets of Customer. This guarantee shall not be released, extinguished, modified, or in any way affected by failure on the part of Supervised Fuels, Inc or assigns to enforce all rights or remedies available to it under the Customer Agreement. In the event suit or action is brought by any party under this Guarantee to enforce any of its terms, it is agreed that the prevailing party shall be entitled to a reasonable attorney fee to be paid by losing party and be fixed by the trial and appellate courts.

A \$25.00 fee will be charged for cards that are not picked up and used within the first 30 days**

BEND OIL COMPANY

CARDLOCK CERTIFICATION and FIRE SAFETY TRAINING TEST

ACCOUNT NAME _____ ACCOUNT # _____

I hereby certify that the above person or entity meets the following criteria: (Read carefully and check one)

- ___ 1. Purchasing diesel only.
- ___ 2. A business, non-profit organization, charitable organization or governmental agency which was using a cardlock system continuously since 6/30/91. (Must supply documentation dated prior to 6/30/91)
- ___ 3. A business, non-profit organization, charitable organization or governmental agency which became a cardlock user after 6/30/91 **and** agree to purchase 900 gallons or more of fuel (gasoline and diesel combined - Class 1 Flammable liquid) from any source during each 12 month period **and** agree to supply proof of gallonage use upon request of Bend Oil Company or the State Fire Marshal.
- ___ 4. A farmer or other entity for which the fuel purchased through the cardlock system qualifies as a deductible farm expense for federal income tax purposes. (Must supply a current Schedule "F", see below)
- ___ 5. A governmental agency providing fire, ambulance or police services.

I further agree to dispense Class 1 flammable liquids into container or the tank of a motor vehicle that is owned or used **solely** by the business identified above. I also agree that **no personal use** is allowed at any time and I understand that I am subject to a citation by the state fire marshal for violating this agreement.

*** I have included one of the following documents (unless diesel only box is marked above):

Federal EIN # _____ ** Your SS# does *not* apply here, must provide one of the below

Copy of current Contractors License

Copy of income tax "Schedule C- Profit & Loss from a Business" ** Entire front page

Copy of income tax "Schedule F- Profit & Loss from Farming" **Line 21 *must* have a number on it

Copy of P.U.C. permit

Do you have vehicles with PUC plates? _____ If so, in order to purchase Oregon state tax exempt diesel you must provide a copy of your PUC permit *and* a tax exemption certificate. (Ask us for this form)

I agree that all Ex-Tax cards issued to my account now, or in the future, will be used solely to purchase fuel for vehicles with a red PUC plate or I will be subject to penalty under Oregon state law. I further certify that I have satisfied the safety training requirements in compliance with the rules of the state fire marshal and that all of the above information is true and correct.

BEND OIL COMPANY
FIRE SAFETY TRAINING TEST
SUPPLEMENT TO CERTIFICATION

This test is to be self-administered. In order for you to have access to unattended automated fueling sites in the state of Oregon, you must *successfully* complete this test for fire safety instruction. Please read the material provided to you and then answer the questions below.

1. Smoking is not permitted at any fueling facility. T ___ F ___
 2. I must stop my engine when fueling. T ___ F ___
 3. The following safety equipment is found at all Pacific Pride sites. (Mark each that is true.)
___ Fire Extinguishers
___ Emergency Stop Buttons (For stopping equipment from dispensing fuel)
___ Emergency Shut-Off Switch (Located within 75 ft. of the island)
___ Telephone or Alarm System
 4. If a fire should occur at the site, I should dial _____ or the emergency number for assistance.
 5. If a fuel spill occurs at the site, I should dial the _____ number posted at the site.
 6. Gasoline is a hazardous material. T ___ F ___
 7. Drinking gasoline is no more harmful than drinking water. T ___ F ___
 8. In case of contact with skin, I should thoroughly wash with _____ and _____ .
 9. If gasoline is swallowed, I should:
___ Induce vomiting.
___ Not induce vomiting.
 10. Gasoline cannot safely be put into a milk carton. T ___ F ___
 11. Portable containers of less than 12 gallons must be placed on the ground before filling T ___ F ___
-

I certify that I have received and read the fire safety training material provided to me by Bend Oil Co. **I agree to distribute the safety brochure to all employees under my supervision and certify that they have been trained in the safe operation of gasoline dispensing equipment at unattended automated fueling sites.**

Signed: _____ Date: _____

Company Name: _____ Phone: _____

FIRE SAFETY TRAINING

SAFE FUELING GUIDELINES

The following are guidelines you **MUST** follow when using a cardlock facility.

**NO SMOKING
GASOLINE IS FLAMMABLE**

NO SMOKING

- Smoking is not permitted. Doing so could result in a serious fire and/or injury.

FIRE EXTINGUISHER LOCATION & USE

Location and instructions for use must be conspicuously posted.

TO USE:

- Hold the extinguisher upright
- Pull ring pin
- Stand back 8 feet from the fire
- Aim at base of fire and squeeze lever
- Sweep side to side

IDENTIFY EMERGENCY EQUIPMENT

Emergency equipment has been installed at this site. Signs have been posted to help you identify it.

BEFORE fueling, please note the location of the following emergency equipment.

- FIRE EXTINGUISHERS.
- A RED EMERGENCY STOP BUTTON is on the card reader station panel. This will shut down the fuel pumps.
- AN EMERGENCY SHUT OFF SWITCH. This allows you to shut down the entire system from a location other than the fueling island. It is clearly identified with a sign. If a fire starts use the EFSO.
- A TELEPHONE or a fire alarm transmitting device.

THE SITE OPERATOR'S telephone number is posted at the site. If you need assistance or need to report a spill or problem, call this number.

CONTAINERS

Only approved containers may be filled.

Approved containers must be:

- CLEARLY MARKED with the name of the liquid. (NFPA No. 30A, Sec. 9.2.3.2).
- Constructed of metal or approved plastic, have a tight closure, and be fitted with a spout or be so designed that the contents can be poured without spilling. (OFC 3404.3 –NFPA 30 4.2).

- A metal or *plastic safety that holds 5 gallons or less (NFPA 30 table 6.2.3).

* An approved plastic container is one that has been tested and listed to be in compliance with the requirements of ASTM F 852 or F 976, ANSI/UL 1313, or 49 CFR.

- A metal drum, meeting DOT specifications that holds 60 gallons or less (NFPA 30, Sec 4.2.3).

Procedures for fueling portable containers:

- Portable containers up to 12 gallons **must** be placed on the ground before filling. **DO NOT FILL PORTABLE CONTAINERS WHILE THEY ARE IN A TRUNK, A BOAT, OR BED OF A PICKUP!** (NFPA No. 30A, Sec. 9.2.3.3)
- Do not use latch open devices when filling portable containers.

OTHER PRECAUTIONS

- STOP YOUR ENGINE and put your vehicle in PARK or set your emergency brake. You MUST STOP your engine before fueling. Discharge static electricity before touching the nozzle.
- You must remain outside your vehicle and must attend the nozzle and be in full view of the nozzle while refueling.

HOW TO BEGIN FUELING

- Insert access card into the card reader and remove it. Directions will appear on the screen of the card reader.
 - Enter your security number. Press ENTER.
- (On a two card system, you will now enter the vehicle card using the same process).
- Enter your 5 digit odometer number or any other number. Press ENTER.
 - Activate the pump by entering the pump number. Press ENTER.
 - Lift the nozzle from the pump and insert the nozzle deeply into the fuel tank.
 - Activate the pump by lifting the lever on the side of the pump.
 - Pull the trigger on the nozzle and begin to dispense fuel.

The optimum nozzle setting for speed of delivery is between 1/2 and 3/4 open. Faster delivery may result in a spill.

If the nozzle is activated too quickly, a leak detector will automatically slow pumping to a trickle. If this happens, release the trigger on the nozzle and wait 10 seconds. Pull trigger back on and pumping should be normal.

FIRE SAFETY TRAINING RECEIPT

I certify that I have received and read the fire safety training material provided to me. I have also distributed the material to all employees under my supervision and certify that they have been trained in the safe operation of gasoline dispensing equipment at unattended automated fueling sites.

CUSTOMER NAME (please print): _____

CUSTOMER SIGNATURE: _____ DATE: _____

ACCOUNT NUMBER: _____

FUELING COMPLETED

- The nozzle should click off when the tank is full.
- Shut the pump off by moving the lever on the pump down.
- Return the nozzle to its hanger.

IN CASE OF FIRE, SPILL OR RELEASE

1. USE EMERGENCY PUMP SHUTOFF
2. CALL 911 TO REPORT THE ACCIDENT, or press the fire alarm if no phone is available.

IN CASE OF SPILL OR RELEASE: CALL THE OPERATOR EMERGENCY NUMBER.

WARNING: Driving away with the nozzle still in your vehicle can result in fire or spill, which could lead to extreme damage and serious injury.

If you drive off with the nozzle in the vehicle, follow the procedures below:

1. STOP VEHICLE.
2. TURN PUMP OFF.
3. PUT HOSE BACK ON PUMP IF POSSIBLE.
4. REPORT INCIDENT USING EMERGENCY NUMBER POSTED AT SITE.

Advise of:

- Your Location
- Pump Number
- Date and Time
- Your Name and Telephone Number

If other assistance is needed call the emergency number and report the problem.

CAUTION! HAZARDOUS MATERIALS

ALL FUELS ARE HAZARDOUS. Read the following warning statements.

DANGERS OF GASOLINE

- Gasoline is extremely flammable.
- Harmful or fatal if *swallowed*.
- May be harmful if *inhaled or absorbed through the skin*.
- May cause *irritation*.
- Long term exposure to *vapors* has caused *cancer* in laboratory animals.
- Keep away from heat, sparks, and flame.
- Avoid breathing *vapor*.
- Use only in well *ventilated* locations.
- Avoid contact with *eyes* and prolonged contact with *skin*. Wash thoroughly after handling.
- Keep container closed.
- FOR USE AS MOTOR FUEL ONLY.

DANGERS OF DIESEL

- Diesel is *combustible*.
- May cause irritation to *eyes*.
- Avoid contact with *eyes*.
- Middle distillates (including diesel) have caused *skin cancer* and *kidney damage* in laboratory animals.
- Keep away from *heat and flame*.
- Use only in well *ventilated* locations.
- Avoid prolonged or repeated contact with *skin*. Wash thoroughly after handling.
- Keep head away from container when opening or dispensing.

FIRST AID PROCEDURES

It is important that you follow these emergency and first aid procedures if you come into contact with gasoline and diesel fuel.

EYES: Flush with water for 15 minutes.

SKIN: Wash exposed areas with soap and water.

INGESTION: DO NOT induce vomiting. May cause chemical pneumonitis. Call doctor.

INHALATION: Should symptoms noted under physiological effects occur, remove to fresh air. If not breathing, apply artificial respiration.

OTHER INSTRUCTIONS: Remove gasoline or diesel soaked clothing.

PHYSIOLOGICAL EFFECTS

Acute Effects - Severe With Short Duration

Gasoline AND Diesel:

- Causes slight to moderate *eye* irritation.
- Moderately irritating to the *skin*; causes redness, edema, or drying of the skin.

Gasoline:

- May cause dizziness; irritation of eyes, nose and throat; vomiting; and bluish color of the skin.
- To the *central nervous system*, may cause contracted pupils, loss of reflexes, convulsions, seizures, sudden loss of consciousness, coma, and sudden death.
- Other symptoms are: Headaches, mental confusion and depression, flushing of the face, loss of appetite, nausea, slurred speech, and difficulty in swallowing.

Diesel:

- Inhaling high concentrations of diesel vapors may cause drowsiness or unconsciousness (narcosis).

Chronic Effects - Severe With Long Duration

Recent studies with laboratory animals have shown that diesel and gasoline vapors cause kidney cancer in mice.

IMPORTANT NOTICE

This FIRE SAFETY TRAINING BROCHURE meets all requirements of Oregon Administrative Rules, Chapter 837, Division 20 and the Flammable Liquids Dispensing Regulations, ORS 480.345.

Please read and provide this information to all employees who are authorized to dispense fuel prior to dispensing. This brochure contains important information for those who operate nonretail fuel dispensing equipment.

RETURN the tear-off portion, signed and dated with the account number, to your cardlock operator to show compliance with Oregon laws.

Fuel Management Feature	Original Card	New Card	Benefit
Controls & Data Collection @ the Fuel Island			
User Definable PIN Security		✓	User definable PIN is easier to remember and can change when given to new employee for additional security.
Odometer Entry	✓	✓	Proper entry allows MPG analysis.
Misc. Key Board Entry	✓	✓	Helps code fueling activity by anything a user needs such as job number, profit center, etc.
Product Grade Restrictions	✓	✓	Ensures drivers purchase only the designated fuel grade such as diesel or regular gas.
Gallon Limits Per Transaction	✓	✓	Prevents over filling of tank resulting in potential spills.
Gallon Limits Per Day, Week, Month		✓	Ensures employee purchases match their fueling needs, reducing potential abuse.
Time of Day and Day of Week Restrictions		✓	Helps prevent unauthorized fueling when employee is not on the job working for your company.
Unusual Fueling Activity Alerts			
Time of Day and Day of Week Alerts	✓	✓	Detect drivers purchasing fuel outside their normal hours of operation (for use when employee is not restricted at time of fueling)
Product Grade Purchase Alerts	✓	✓	Detect drivers purchasing outside their normal grade of fuel (for use when employee is not restricted at time of fueling)
Miles Per Gallon Variation	✓	✓	Detect when vehicle MPG falls outside an acceptable range. Helps ensure vehicle performance and deters abuse.
Excessive Transactions Per Day	✓	✓	Identify drivers who fuel more than once per day.
Management Reporting & Information Access			
On-Line Account Activity Viewing	✓	✓	Allows the ability to view both current transactions as well as those from past billings, including all detail such as unusual fueling activity alerts.
On-Line Account Activity Download	✓	✓	Quickly download transactions onto your computer in MS Excel format for personalized data manipulation and integration into accounting or vehicle maintenance systems.
Comprehensive Management Reporting	✓	✓	Complete fueling activity analysis including tax accounting and driver reporting.

Proprietary and Confidential Information of Supervised Fuels/Bend Oil Company

Commercial Fuel Pricing Verses Retail Pricing

Buying fuel under a commercial fleet program has many advantages including purchase controls and management reporting that help reduce slippage. Another benefit is that commercial fuel customers are sold fuel more closely to the wholesale cost curve. Retail service stations are slower to lower their prices as costs fall. It's a common mistake for businesses to believe they are getting a better deal from a retail store, when over the long run commercial fueling saves them substantially more, both in actual cost and in gained efficiencies.

Understanding how to read your fuel management statement is an important step towards controlling your fuel costs.

Businesses also need to understand the level of control over fueling activity is dependant upon all purchases being made within the system. Every purchase made outside the system degrades your auditing and accounting controls at every level. Not only does it compromise your volume discount potential, it opens the door to slippage, which can cost your business substantially.

How to Read Your Statement

1	2	3	4	5	6	7				
Site	Description	Date	Time	MPG	Odometer	Misc.	Product	Gallons	Price	Total
Bend	1 st Street	3/24/2005	8:26	14.2	75,343	1	Unleaded	22	2.499	54.98
Redmond	Hwy 97 North	3/25/2005	14:01	11.1	75,587	1	Unleaded	26.8	2.519	67.51
Klamath Falls	6th St	3/26/2005	11:35	9.4	75,839	1	Unleaded	32.2	2.569	82.72
Bend	Hwy 97 South	3/28/2005	8:15	2	75,904	2	Unleaded	21.5	2.499	53.73
								102.5		258.94
	Cost Per Mile	0.46		5.5	561					

- 1 Knowing exactly **where** your drivers are fueling is critical to your fuel management review. Are they where you expected them to be? A quick perusal will tell you if they have fueled in an unexpected location.

- 2 Knowing exactly **when** your drivers are fueling is equally critical. Were they on the job at the time and date listed? This is an excellent tool for detecting abnormal employee activity.

- 3 Knowing exactly **how** many miles per gallon between fueling events is essential for two reasons. First of all, it will expose drivers who put fuel in anything other than your company vehicles. Detectable swings in MPG performance often mean that not all of the fuel is making it into the company asset. Secondly, if the odometer readings have been entered correctly, declining MPG performance can help detect a vehicle that is not functioning properly.

- 4 Odometer readings are essential to the system. It's important to make sure your employees carefully and diligently input this data at each fueling. Drivers that continually refuse to adhere to the request should be considered suspect. Without this data, you can't calculate MPG, and subsequently detect inefficiencies or abuse.

- 5 Often overlooked by businesses is the ability to code transactions for other management purposes, such as job number, profit center, or any other data collection need you may have that will help your business.

- 6 Complete product descriptions and gallons purchased help manage fueling activity. If you have not implemented product grade restrictions and gallon limits on your employee's activity, contact us for more information.

- 7 Price per transaction with all taxes included. Remember, you are on a wholesale pricing program that has hidden benefits to retail based pricing.

(Continued on next page)

Supervised Fuels provides a comprehensive summary of fueling activity at the end of your management statement:

Product	Total Gallons	Average Price	Amount	Federal Tax	State Tax	County Tax	City Tax	Sales Tax	Other Tax	Total
OREGON										
Unleaded	102.5	2.526	258.94							258.94
Hwy Diesel	1202.4	1.917	2305.00	293.39	288.58					2886.96
WASHINGTON										
Unleaded	245.6	2.619	643.23							643.23
Hwy Diesel	.420	1.949	818.58	102.46	100.80					1021.86
Total Purchases This Invoice										4810.99

- 8 At the end of each billing period you will be able to identify the total purchases of gasoline and diesel by state of purchase.
- 9 For each state, we provide the total gallons of each product purchased.
- 10 Knowing your average price paid per gallon for each product, before taxes can be used for budgeting purposes. Remember, you are purchasing under a wholesale pricing structure that will benefit you greatly during periods when cost falls, but the retail fueling market remains high.
- 11 Total cost of fuel before taxes
- 12 Complete breakout of taxes paid by tax type, and state of collection.

Supervised Fuels also has access to account information online. This enables you to view your fueling activity prior to receiving a printed management statement. You can also view archived statements from months past.

Consolidated Purchasing and the Importance of Rate-able Gallons

Consolidating your fuel purchases with us offers more than the benefit of control and volume discounts. You will also be establishing a rate-able purchasing history.

The world supply of petroleum products is stressed. Events such as natural disasters, political instability, terrorist attacks, and emerging demand from developing countries all have the potential of disrupting the fuel supply chain. In the event our nation’s fuel supply becomes allocated, a term we haven’t had to use since the 70’s, your rate-able gallons will factor into your available fuel supply. It’s important to understand; Retail purchases, or purchases made on fuel cards not directly issued by a primary fuel supplier (I.E. Wright Express, Voyager, bankcards) can’t establish rate-able gallons for allocation purposes.

In addition, our commercial fueling locations will help insulate your business from the typical chaos that follows disruptive events. Your employees fueling activity will be removed from the general population who will flood retail locations attempting to secure fuel.

For questions, please contact us (541) 330-8356
